Sanitation and Hygiene

From Prayer 2 Provision

In a long outage, sickness from poor sanitation is a bigger danger than hunger. Keep this card with your supplies.

Trash bag toilet (easiest)

You need: heavy duty trash bags, duct tape, a towel, cat litter or sawdust

1. Bail out any water left in the bowl.
2. Lay a dry towel in the bottom of the bowl.
3. Line the bowl with a heavy duty trash bag and tape it around the rim.
4. After each use, sprinkle cat litter or sawdust on top.
5. When half full, untape it, tie it, double bag it, and store it in a lidded can outside.
6. Wash hands or use sanitizer every time.

Bucket toilet (backup for leaving home)

1. Line a 5 gallon bucket with 1 or 2 trash bags.
2. For a seat, use a toilet seat made to fit a 5 gallon bucket. A sliced pool noodle works in a pinch, but it is not very sanitary.
3. Cover each use with cat litter or sawdust. Keep the lid on.
4. Label it TOILET, and keep it a different color from food buckets.

Water off, sewer working?

Pour 1 to 2 gallons of non drinking water quickly into the bowl to flush. If the sewer is backed up, do not flush. Use a bag toilet.

Castile soap jobs

- **Dishes:** wash, rinse, then dip in 1 tablespoon regular unscented liquid chlorine bleach per gallon. Air dry.
- **Laundry:** a squirt in a bucket. A clean plunger makes a great agitator.
- **Body:** dilute a little in water. Do not mix with vinegar.

MY HYGIENE SUPPLIES

- [ ] Toilet paper and paper towels
- [ ] Disinfecting and baby wipes
- [ ] Heavy duty trash bags
- [ ] Cat litter or sawdust
- [ ] Toothbrushes, toothpaste, deodorant
- [ ] Paper plates, cups, plastic silverware
- [ ] Hand sanitizer (60% alcohol or more)
- [ ] Duct tape
- [ ] Feminine products and diapers
- [ ] Castile soap

"Wash you, make you clean."

— ISAIAH 1:16 (KJV)
